About Fraser Academy

Fraser Academy's program includes a full range of courses which follow the British Columbia curriculum. While following these guidelines and standards, Fraser Academy teachers and tutors bring the basic curriculum to life and involve each student in a dynamic learning experience. Students receive daily one-to-one tutoring in Language Arts. Teachers develop a comprehensive understanding of each student's learning, social, and emotional needs. Individual Education Plans are designed and implemented for each student.

Each tutor is a trained professional who uses the Orton-Gillingham approach. This approach is a multi-sensory teaching method which uses kinesthetic activities to help establish visual-auditory associations. A one-to-one instruction is an extremely powerful model for effectively remediating basic language skills of learning-disabled students.
